

Faux Embroidery

A Colourflex Transfer with the supplied artwork digitised to create a texture and depth that mimics traditional embroidery. Suitable for branding bags, apparel and other textile products with unlimited colours.

BEST FOR

Caps, apparel, bags and textile products needing an embroidered look with unlimited colours

COLOURS

Unlimited colours. Pantone matching is not available - artwork is matched to the closest thread colour with 3D shading that affects the final colour outcome. Metallic colours not available.

LEAD TIME

Can be shipped straight after being printed

ARTWORK NEEDED

Vector and/or high-resolution JPEG. Bitmaps can be used, but insufficient resolution will affect output quality. Sans Serif fonts: min. height 4.5mm, 1.3mm thickness, 1mm letter spacing. Serif/Script fonts: min. height 5.5mm, 1.3mm thickness, 1mm letter spacing.

AVAILABLE FOR

Apparel / Headwear / Bags & Totes

ADVANTAGES

- Durable, flexible branding for apparel that is machine washable with a soft-touch matte finish
- Eco-friendly water-based inks
- Efficient self-weeding technology
- Only one set up charge is required regardless of the number of print colours
- Can be shipped straight after being printed
- Can be applied to a larger range of products and positions
- Results on smaller sized prints is far better than can be achieved with conventional embroidery

LIMITATIONS

- Pantone colour matching is not available. Artwork will be matched to the closest available thread colour with a 3D shading that will affect the colour outcome
- Not suitable for fine details in the artwork - bold larger art is recommended to create the most realistic Faux Embroidery
- As the size of the design decreases, both stitch clarity and detail resolution be reduced
- Metallic colours not available
