

Thermo Debossing

Thermo debossing is only available on certain products, using additional heat to create a unique and eye-catching two-tone finish.

BEST FOR

PU and leather notebooks, journals and certain products that can accept a heated two-tone impression

LEAD TIME

The product can be shipped as soon as heat pressing is finished

COLOURS

Two-tone finish - the contrast comes from the heat reaction, not ink

ARTWORK NEEDED

Vector artwork required. Fonts should be converted to outlines/objects. Minimum line thickness 0.4mm.

AVAILABLE FOR

Business Items / Personal Products / Gift Packs

ADVANTAGES

- Produces a two tone finish that means it stands out
- Higher perceived value than other forms of branding
- The branding becomes part of the product and is permanent
- The product can be shipped as soon as heat pressing is finished

LIMITATIONS

- Unable to print variable data such as individual naming
- Minimum line thickness: 0.4mm
