

Digital Print

A CMYK digital print process for paper, vinyl and magnetic material used in the manufacture of labels, badges, fridge magnets and similar items.

**BEST FOR**

Labels, badges, fridge magnets, stickers and promotional paper products

LEAD TIME

Dries instantly, so products can be shipped immediately

COLOURS

Full CMYK digital print. Metallic and neon/fluorescent colours are not available.

ARTWORK NEEDED

Vector or bitmap at 300DPI at actual print size. Add a 3mm bleed if artwork bleeds off the product. Fonts should be converted to outlines/objects.

AVAILABLE FOR

Promotional Items / Business Items / Personal Products / Tech & Power / Gift Packs

ADVANTAGES

- Ideal for producing full colour, complex images with gradients
- Variable data including individual names is available on select products
- Only one set up charge is required regardless of the number of print colours
- Dries instantly so products can be shipped immediately
- Select products can be cut to custom shapes
- Edge-to-edge branding can be achieved on certain products

LIMITATIONS

- Metallic and neon/fluorescent colours are not available
- White print cannot be produced on kraft, clear, silver or gold stock
- Cannot print on dark coloured substrates as white ink cannot be printed underneath the artwork
