

Puff Print

A specialty Screen Print process used for branding apparel. Puff Print uses a special ink which expands during curing to create a raised, textured, three-dimensional finish.

BEST FOR

Apparel, bold logos, large typography and simple graphic elements where a tactile look is desired

LEAD TIME

Standard screen print lead time applies

COLOURS

One colour per artwork - exact colour matching cannot be guaranteed

ARTWORK NEEDED

Vector artwork required. Supplied bitmaps must be higher than 300DPI at actual print size. Minimum line thickness 3mm. Minimum negative space/open gaps 4mm. Fonts should be converted to outlines/objects.

AVAILABLE FOR

Apparel / Headwear / Bags & Totes

ADVANTAGES

- Adds a retail-style finish to garments
- Produces a highly tactile and eye-catching result
- Can be combined with one colour Screen Print to add dimension to your design
- Durable and long-lasting branding process

LIMITATIONS

- Not suitable for fine detail, thin lines, or gradients
- Small text and tight spacing may close during Puff Print expansion
- Exact colour matching cannot be guaranteed
- Puff Print expansion can vary slightly across different garment types
- Puff Print is available in one colour per artwork
